

Investment assistance for SMEs

Last Updated Monday, 01 March 2010

You run a small or medium-sized company (less than 10 permanent employees) and plan to develop your activity by investing in new equipments? We can help you financially for those acquisitions and for the realisation of fitting works in commercial premises.

This assistance can be gathered for every artisan in the department of the Somme, and for the shops located in towns up to 5,000 inhabitants.

Assistance can reach 15% of the eligible spending (tax excl.), up to a 6,000 € limit.
